MA DEGREE PROGRAM

English-based, 2-year Degree Program

Asian Political Economy (MAPE)
Global Political Economy (MGPE)

MAPE examines Asia's economic transformation, institutional development, and state–market relations, while MGPE explores global economic and political dynamics, including trade, finance, innovation, governance, and international security. Together, they provide interdisciplinary perspectives on regional and global challenges.

PHD DEGREE PROGRAM

English-based, Research Intensive Degree Program

Political Science Track
Economics Track

Students are prepared for university teaching and research careers in political science, economics, international affairs, and comparative public policy, or as international affairs researchers and specialists in policy analysis.

The program combines the theoretical perspectives and analytical skills of comparative political economy with international relations, development economics, international economics, institutional analysis, policy analysis (especially economic policy) and regional training in Asian studies.

The PhD in Political Economy is designed to break down barriers and build bridges across the fields and give all of our students a broad command of the related social sciences knowledge and approaches so that they are capable of integrating theoretical insights and analytical skills from different disciplinary perspectives.
